EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on September 27, 2007, David Thompson requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 12-0769 the required fee of \$120 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

--1. (Currently Amended) A computing device, comprising:

a portable computer; ~~and~~

a deployable label base, attached to the portable computer, and configured to display labels associated with the portable computer; and

a theft deterrent configured to render the portable computing device inoperable if the deployable label base is removed from the portable computing device;

wherein the deployable label base is configured for movement between a first position and a second position, the labels being viewable in the first position and in the second position at least some of the labels are slid into the ~~portable computer~~computing device, thereby concealing them from view.--

Claim 10 has been cancelled.

--14. (Currently Amended) A label display system, comprising:

Art Unit: 3611

a deployable label base configured to display required labels for an electronic device; ~~and~~
the deployable label base configured for movement between a first position and a second position, wherein within the first position the labels are viewable and in the second position at least some of the labels are slid into the electronic device, thereby concealing them from ~~view~~
~~view~~; and

a theft deterrent configured to render the portable computing device inoperable if the deployable label base is removed from the portable computing device.--

--21. (Currently Amended) A label display system, comprising:
a deployable label base configured to display required labels for an electronic device; ~~and~~
the deployable label base configured for movement between a first position and a second position, the labels being viewable in the first position and at least some of the labels being concealed from view in the second position; and

a theft deterrent configured to render the portable computing device inoperable if the deployable label base is removed from the portable computing device;

wherein the deployable label base is flexible.--

--25. (Currently Amended) A method, comprising:
attaching labels for a portable computing device to a deployable label base;
moving the deployable label base ~~being moveable~~ between a first position and a second position, wherein the labels are viewable in the first position and in the second position at least some of the labels are slid into the portable computing device, thereby concealing them from ~~view~~; view; and

rendering the portable computing device inoperable if the deployable label base is removed from the portable computing device.--

Claim 32 has been cancelled.

--35. (Previously Presented) A method, comprising:

displaying required labels for an electronic device on a deployable label base;

moving the deployable label base ~~being moveable~~ between a first position and a second position, wherein the required labels are displayed in the first position and in the second position at least some of the required labels are slid into the electronic device, thereby concealing them from display; and

rendering the portable computing device inoperable if the deployable label base is removed from the portable computing device.--

Claim 39 has been cancelled.

2. Claims 1, 14, 25 and 35 are allowable. Claims 9, 11-13, 22-24, 33, 34, 40 and 41, previously withdrawn from consideration as a result of a restriction requirement, contain all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement as set forth in the Office action mailed on August 23, 2006, is hereby withdrawn** and claims 9, 11-13, 22-24, 33, 34, 40 and 41 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction
